MCLM Agreement.pdf

Dear Lee,

Please note the APA has a typo in the last channel pair, it should be 217.2750 MHz and 219.2750 MHz, not "2759". I corrected this on the hard copy signed APA, but not on the softcopy you may have.

As for channel assignments, we recommend that Dravosburgh be on 217.2750 MHz and Plumb on 219.2750 MHz. The rest are up to you to select, if that sounds good. I would suggest alternating sites between 217 MHz and 219 MHz when they are in close geographic proximity to each other.

Kind wishes,

John

Dear Lesley,

We filed the attached lease notification, in order to get the ball rolling with the FCC. We can always retract or amend these if you wish. But they reflect the lease of the channels involved in the sale of the license to Duquesne.

We will prepare the assignment paperwork separately and send that to you soon. Please call or email me with any questions.

Thanks,

PUBLIC INTEREST STATEMENT

Duquesne Light Company (Duquesne) is a critical infrastructure industry transmitter and distributor of electric power to more than one half million customers in southwestern Pennsylvania.

Duquesne must install new sectionalizers during the coming 12 months. (A sectionalizer is used to automatically open and close power circuits during storms and other emergencies to ensure as many customers as possible remain in power and to protect electrical equipment of great value including lines and transformers.) In areas where CDMA coverage is lacking, primarily in Beaver County, Pennsylvania, private radio communications in the VHF frequency range is the sole remaining option for coordination of the work and for the protection of the safety of the lives of Duquesne personnel working in remote areas. Use of AMTS spectrum will be essential to installation of sectionalizers in these areas in which communications alternatives are not available.

The interference contour from each of Duquesne's stations will not exceed the interference contour of station WHG750. Duquesne will notify the licensee of Channel 13 Television station WQED and provide technical information for each station at least 15 days before commencing operation.
